A service of the U.S. Department of Labor's Office of Disability Employment Policy

Preface

The Job Accommodation Network (JAN) is a service of the Office of Disability Employment Policy of the U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office <http://www.loc.gov/copyright>. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

JAN'S ACCOMMODATION AND COMPLIANCE SERIES

Introduction

The Americans with Disabilities Act (ADA) Amendments Act and regulations from the Equal Employment Opportunity Commission refocused attention on workplace accommodations by broadening the definition of disability; more coverage means more employees will likely be entitled to workplace accommodations. This increased attention has some employers concerned about the costs of providing job accommodations. However, a study conducted by the Job Accommodation Network (JAN), a service of the U.S. Department of Labor's Office of Disability Employment Policy (ODEP), shows that workplace accommodations not only are low cost, but also positively impact the workplace in many ways.

The JAN study has been on-going since 2004. JAN, in partnership with the University of Iowa's Law, Health Policy, and Disability Center (LHPDC), interviewed 1,182 employers between January 2004 and December 2006. In addition, JAN, in partnership with the West Virginia University School of Social Work (formerly School of Applied Social Sciences), interviewed 1,090 employers between June 28, 2008, and July 31, 2015. Employers in the JAN study represented a range of industry sectors and sizes and contacted JAN for information about workplace accommodations, the ADA, or both. Approximately eight weeks after their initial contact, the employers were asked a series of questions about the situation they discussed with JAN and the quality of the services JAN provided.

The study results consistently showed that the benefits employers receive from making workplace accommodations far outweigh the low cost. Employers reported that providing accommodations resulted in such benefits as retaining valuable employees, improving productivity and morale, reducing workers' compensation and training costs, and improving company diversity. These benefits were obtained with little investment. The employers in the study reported that a high percentage (58%) of accommodations cost absolutely nothing to make, while the rest typically cost only \$500.

And to top off these positive results about the cost and benefits of workplace accommodations, the employers in the study also reported that JAN understood their needs and provided information that met their needs. In addition, 100% of employers stated that they would use JAN services again for assistance with workplace accommodations.

What is the bottom line? Workplace accommodations are low cost and high impact, and JAN can help employers make them, free of charge.

Findings

Finding #1: Employers want to provide accommodations so they can retain valued and qualified employees.

Of the employers who called JAN for accommodation information and solutions, most were doing so to retain or promote (83%) a current employee. On average (including those persons who had just been given a job offer or who were newly hired), the employees had been with the company about seven years, with an average wage of about \$14 for those paid by the hour, or an average annual salary of about \$51,500. In addition, the individuals tended to be fairly well-educated, with 54% having a college degree or higher.

Finding #2: Most employers report no cost or low cost for accommodating employees with disabilities.

Of the employers who gave cost information related to accommodations they had provided, 389 out of 673 (58%) said the accommodations needed by employees cost absolutely nothing. Another 251 (37%) experienced a one-time cost. Only 24 (4%) said the accommodation resulted in an ongoing, annual cost to the company and 9 (1%) said the accommodation required a combination of one-time and annual costs; however, too few of these employers provided cost data to report with accuracy. Of those accommodations that did have a cost, the typical one-time expenditure by employers was \$500. When asked how much they paid for an accommodation beyond what they would have paid for an employee without a disability who was in the same position, employers typically answered around \$400.

Finding #3: Employers report accommodations are effective.

Employers who had implemented accommodations by the time they were interviewed were asked to rank the effectiveness of the accommodations on a scale of 1 to 5, with 5 being extremely effective. Of those responding, 74% reported the accommodations were either very effective or extremely effective.

Finding #4: Employers experience multiple direct and indirect benefits after making accommodations.

Employers who made accommodations for employees with disabilities reported multiple benefits as a result. The most frequently mentioned direct benefits were: (1) the accommodation allowed the company to retain a valued employee, (2) the accommodation increased the employee's productivity, and (3) the accommodation eliminated the costs of training a new employee.

The most widely mentioned indirect benefits employers received were: (1) the accommodation ultimately improved interactions with co-workers, (2) the accommodation increased overall company morale, and (3) the accommodation increased overall company productivity. The following table gives the percentage of employers who reported experiencing direct and indirect benefits as a result of having made an accommodation.

Direct Benefits	%
Retained a valued employee	90%
Increased the employee's productivity	72%
Eliminated costs associated with training a new employee	60%
Increased the employee's attendance	55%
Increased diversity of the company	41%
Saved workers' compensation or other insurance costs	38%
Hired a qualified person with a disability	13%
Promoted an employee	9%
Indirect Benefits	
Improved interactions with co-workers	64%
Increased overall company morale	62%
Increased overall company productivity	56%
Improved interactions with customers	45%
Increased workplace safety	45%
Increased overall company attendance	41%
Increased profitability	28%
Increased customer base	17%

Finding #5: Employers find JAN helpful during the accommodation process.

Ninety-eight percent of employers found that JAN understood their needs. In addition, 94% of employers stated that the information JAN sent them met their needs. Overall 100% of employers stated they would use JAN again.

Situations and Solutions

Data from the past year provide insight into successful situations and solutions from various employment settings and stages, including a wide sampling of industries and business sizes.

Situation: An insurance claims adjuster with cancer had difficulty concentrating, dealing with fatigue, and remembering tasks. The employee's physician stated that these limitations were due to her chemotherapy and medication, which resulted in her needing help focusing.

Solution: As a reasonable accommodation, the employer reduced auditory and visual distractions by moving the employee's desk to a quieter area.

Reported benefit: By making this accommodation the employee was able to meet/exceed production goals and have better focus. The employer benefitted from having a more satisfied employee and increased productivity.

Reported cost: \$0.

Situation: A scientist with carpal tunnel syndrome was having performance problems. He experienced pain when completing quarterly reports.

Solution: As a reasonable accommodation, the agency purchased an ergonomic keyboard.

Reported benefit: The employer reported the accommodation was extremely effective, decreasing stress and increasing productivity and morale.

Reported cost: \$70.

Situation: A janitor with a back impairment had limitations in lifting, carrying, and kneeling.

Solution: As a reasonable accommodation, the employer provided ergonomic and lightweight cleaning equipment.

Reported benefit: The employer stated that the employee was able to do his job.

Reported cost: \$200.

Situation: A greeter with a speech impairment was having difficulty greeting customers and asking questions when necessary.

Solution: As a reasonable accommodation, the employer purchased a voice recorder.

Reported benefit: The employee was very happy with the accommodation, stating that it reduced her stress.

Reported cost: \$250.

Situation: A computer technician with hearing loss had difficulty hearing and communicating with employees.

Solution: As a reasonable accommodation, the employer purchased a communication device (including microphone) and tablet that transcribed utterances of co-workers and allowed the use of a speech generating device when needed.

Reported benefit: The employer reported that the employee can now communicate more effectively.

Reported cost: \$3,000.
